

As our population ages, more and more of us will rely on care home staff for our quality of life.

Some of us will need nursing care. All of us will benefit from nursing advice to prevent illness and maintain independence.

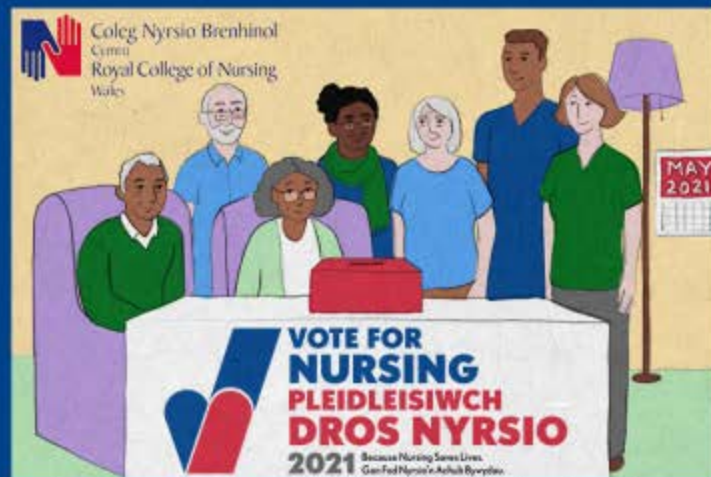

But there aren't enough registered nurses or care workers working in care homes in Wales.

We need more people – from Wales and beyond – to pursue careers in care. But how?

More student placements. Better pay. More opportunities for progression. All these will encourage nurses into the care sector, and benefit patient care too.

In the Senedd elections in May 2021, all political parties must commit to investing in care home nursing. Vote for nursing, because nursing saves lives.
